stated in the benefit. Hogan has now a complete Hawaiian band, and the concert. It was only a little while ago that he was presented with a lovely gold watch by Honolulu; the job follows very appropriately.

## Minister Young Returns.

Among the Australia's passengers yesterday was Hon. Alex. Young, Minister of the Interior, who has been on a brief business trip to the Coast. Mr. Young went down with the Australia last month, remaining in San Francisco last week. While there he had the preliminary plans drawn up for his new business block, and these were published with much favorable comment in the San Francisco papers. Mr. Young acted in the role of impresario on the return trip of the Australia, being the organizer of the concert which was the chief feature of the trip as well as being one of the chief performers.

## Wireless Telegraph.

The last of the experts and instruments, including the wires, for the wireless telegraphy system, arrived on the Australia yesterday morning, and the work of establishing communication between all the islands will be gone ahead with all possible speed. J. S. V. Piets and T. E. Hobbs are the experts who arrived yesterday. Will E. Fisher's offer of \$50 for the privilege of selling at auction the first message will be accepted, and June 16 may be the day.

FOR HONOLULU'S  
POSTAL SYSTEM

Special Agent Flint is Here to  
Make Local Office an Up-  
to Date One.

Beginning next Thursday a postal service will be inaugurated in Honolulu that will be the equal of that in any city of its size in the entire United States. M. H. Flint, special agent for the United States Postal Department, arrived yesterday on the Australia and will begin at once the work of revising the postal service of Honolulu and of the Islands at large and within another month changes will be in force that will prove of great benefit and value to all Hawaiians.

Among the innovations which will be of most direct interest and benefit to Honolulu will be the institution of a free delivery system in this city. This long-expected improvement will be much appreciated here and it will be effected as soon as Mr. Flint can make the necessary preliminary arrangements. Another advance which will be the extension of the laws governing money transactions through the mails. Hereafter it will be possible to send money through the mails in the form of money orders payable at any postoffice in the States.

While no Hawaiian postage stamps or postal cards or stamped envelopes will be sold after June 15th, this does not mean that such articles are already on hand and are rendered valueless. All stamps of the republic of Hawaii which have been sold prior to that date will be accepted for postage until after December 15th, but the introduction of the new system will make a material reduction in the rates of postage between the Islands and the Mainland, it is not anticipated that many Hawaiian stamps will be used after Thursday.

What may be perhaps considered a disadvantage of the new system will be the discontinuance of the parcels post system from the Islands. After June 15th only parcels and merchandise weighing not to exceed four pounds will be accepted in the mails. It is expected that this will be counterbalanced by the establishment of an express system from the Islands to the Coast, similar to that of Wells-Fargo and the Pacific Express.

Mr. Flint comes from Washington and has been in the United States for some time. He is a former Postoffice Department official and has been in charge of the postal service of the Islands since he came to Honolulu. He is a young man, but he has had many years of actual service in the Postoffice Department at Washington and he is thoroughly conversant with the workings of the Department in all its branches.

Myron H. Jones Dead.

By the Australia came the news of the death of Myron H. Jones, at one time in the office of Castle & Cooke, and for several years organist at the old Fort Street Church. He was on the steamer Ukiah crossing the San Francisco bay, May 24, when he either fell overboard or committed suicide. His body was recovered next morning near Tiburon. The deceased was the son of Rev. W. L. Jones, a former president of Oahu College, and a very able musician. Since leaving the Islands he held the position of burgar at Tainui, and played the organ frequently in San Rafael church. He was 44 years of age.

## No Rebate.

The Cabinet meeting yesterday was an important one, and was attended by Minister Young who returned on the Australia. A number of matters were considered, first the request for the remission of storage charges on goods stored in the quarantine wharf, which was denied by the Council. The matter originated from a request of Mr. J. A. Gilman, chairman of the sub-committee on Quarantine wharf asking that the request be granted. The Collector-General of Customs forwarded the Council on June 1. Similar action was taken with reference to the request of Lewers & Cooke, dated June 4, asking for rebate of wharfage on four vessels consigned with cargoes to them.

## Kaunakapili Chapel.

The congregation of the burned Kaunakapili church have just completed at Palama, the other side of Kalaupapa, a temporary chapel for the purpose of holding their services until a new church is built for them. It is now a large and cozy little place of worship. Next Sunday afternoon at 3 o'clock the chapel will be dedicated by special services and it will be quite an event, as a number of Hawaiian pastors who are attending the Evangelical Association meetings will be present.

day night next at the drill shed. He said they would hold the meeting outside where all the people of Honolulu could congregate, and if necessary he would hold his hand toward the moon with the request that it stand in its place while the meeting was in progress.

It was finally arranged that the mass meeting be held on the night proposed at 7 o'clock. A large platform will be erected outside the drill shed, in the open air.

The meeting then adjourned to 10 o'clock and thought that the meeting should be held inside the shed according to custom. He was voted down. The meeting then adjourned to 10 o'clock this morning.

## A Honolulu Fisher.

T. W. Hobson of Honolulu won the tournament prize at Santa Catalina yesterday by taking the first sea bass of the season with rod and reel. The fish weighed forty-four pounds. Mr. Hobson also brought in a remarkable catch of other fish, consisting of thirty-two barracuda, two yellowtail, two rock bass and a forty-pound sunfish.—Los Angeles Times.

JOIN HANDS AND  
HEARTS LAST NIGHT

Vivian Turner and Miss Rowena Dowsett Married at  
St. Andrew's Cathedral.

The marriage bells were ringing merrily last evening at St. Andrew's Cathedral, when Herbert Vivian Turner and Miss Rowena Dowsett were united in the holy bond of wedlock. The interior of the cathedral looked beautiful with its fine floral decorations specially arranged by artistic hands. The prevailing colors were green and white. Potted palms and ferns were placed in conspicuous places, and here and there could be seen the white flowers from the palms. The ceremony was performed by the Rev. Vincent H. Killeen.

The surpliced choir sang the hymn, "How Welcome Was the Call," while the bride, attired in an elegant costume of white with veil, and leaning on the arm of her brother David, entered the church and took her place alongside the groom at the head of the nave. There was no bridemaid, but the groom was attended by Mr. D. W. Anderson. During the entire ceremony the organist, Wray Taylor, played, very softly, "O Promise Me" and other appropriate music, finishing with Mendelssohn's "Wedding March" as the newly married couple left the Cathedral.

## NOTICE.

## To Our English-Speaking Friends:

The Chinese merchants and residents of the Hawaiian Islands, represented by the undersigned, being desirous of providing for their sons a thorough and comprehensive education in English, raised in pledges, from August to December, sufficient funds to justify them in undertaking to erect commodious buildings for this purpose in Kamakela. The contract was let and the main building partially completed, when the plague broke out and interrupted the work. As you well know, our countrymen have been the greatest sufferers from this epidemic and the fires connected with it. Consequently, those who generously subscribed toward the school enterprise, being called upon to donate large sums for the relief of their fellow-countrymen who have suffered severely from the fire, find themselves unable to fulfill their pledges at present. The main building is now on the point of completion, and the contractor, himself homeless, is in great need of his money.

In this emergency, and because we believe you recognize that our motives in undertaking this enterprise were philanthropic, our object a commendable one, and that we are in no wise at fault for the straits in which we now find ourselves; we therefore solicit such contributions to our present needs as your beneficence will allow. Send as cash or pledges to Wong Kwai, Box 954, Honolulu.

Very respectfully yours,

WONG KWAI.

CHU GEM.

L. AHLO.

## NOTICE

AFTER JUNE 14TH I WILL OPEN a civil and electrical engineering office in Honolulu. Persons desiring such work may communicate with me prior to the above date, at the Waialua plantation; after that date my address will be as advertised.

Will make a specialty of Railroad and Hydraulic work.  
Complete plans, estimates and maps furnished on engineering work. Accuracy guaranteed.

I am prepared to contract engineering work from preliminary surveys to final reports and estimates; also to take charge of engineering contracting on commission. Respectfully,  
E. TAPPAN TANNATT,  
5564 Civil and Electrical Engineer.
